

Frontiers in Developmental Neurogenetics : Diagnosis, Modeling and Treatments

Sep. 21st 2022, 15:00

**Korea University Central Plaza(B1F)
CCL(CJ Creator Library) Event Hall**

Time	Title	Speaker
15:00~15:10	Opening	Woong Sun (Korea University)
15:10~15:40	Understanding genetic mechanism of rare diseases	Murim Choi (Seoul National University)
15:40~16:20	The discovery of new recessive disease genes and therapeutic interventions	Muhammad Ansar (Jules-Gonin Eye Hospital, Lausanne, Switzerland)
16:20~16:30	Break Time (Group Photos)	
16:30~17:00	Reversibility and developmental neuropathology caused by dysregulation of the RAS-MAPK pathway	Seung Tae Baek (POSTECH)
17:00~17:30	Identification of precancerous cells leading to intratumoral heterogeneity in glioblastoma	Hyun Jung Kim (Korea University)
17:30~17:40	Closing
